### **Notes to the Financial Statements for the Year Ended 30 June 2025**

#### **Members' remuneration and division of profits**

The SORP recognises that the basis of calculating profits for allocation may differ from the profits reflected through the financial statements prepared in compliance with recommended practice, given the established need to seek to focus profit allocation on ensuring equity between different generations and populations of members.

Consolidation of the results of certain subsidiary undertakings, the provision for annuities to current and former members, pension scheme charges, the spreading of acquisition integration costs and the treatment of long leasehold interests are all items which may generate differences between profits calculated for the purpose of allocation and those reported within the financial statements. Where such differences arise, they have been included within other amounts in the balance sheet.

Members' fixed shares of profits (excluding discretionary fixed share bonuses) and interest earned on members' balances are automatically allocated and, are treated as members' remuneration charged as an expense to the profit and loss account in arriving at profit available for discretionary division among members.

The remainder of profit shares, which have not been allocated until after the balance sheet date, are treated in these financial statements as unallocated at the balance sheet date and included within other reserves.

#### **Taxation**

The taxation payable on the partnership's profits is the personal liability of the members, although payment of such liabilities is administered by the partnership on behalf of its members. Consequently, neither partnership taxation nor related deferred taxation is accounted for in these financial statements. Sums set aside in respect of members' tax obligations are included in the balance sheet within loans and other debts due to members, or are set against amounts due from members as appropriate.

#### **Members' interests**

Amounts due to members after more than one year comprise provisions for annuities to current members and certain loans from members which are not repayable within twelve months of the balance sheet date.

## **2 Particulars of employees**

The average number of persons employed by the limited liability partnership during the year was 1 (2024 - 1).

This document was delivered using electronic communications and authenticated in accordance with the registrar's rules relating to electronic form, authentication and manner of delivery under section 1072 of the Companies Act 2006.
