Notes to the Financial Statements
for the Year Ended 31 July 2020

1. **STATUTORY INFORMATION**

MagnaCom Limited is a private company, limited by shares, registered in Scotland. The company's registered number and registered office address can be found on the Company Information page.

2. **ACCOUNTING POLICIES**

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

The director believes that the company has sufficient working capital to meet its obligations during the current Covid 19 pandemic. The company is continuing to trade and on that basis the director considers it appropriate for the Accounts to be prepared on the going concern basis.

Turnover

The turnover shown in the profit and loss account represents revenue recognised by the company in respect of the sale of computer equipment and other associated peripherals as well as the provision of IT services exclusive of Value Added Tax and trade discounts. The company recognises revenue when it has the right to receive it.

Stocks

Stocks are valued at the lower of cost and selling price less costs to complete and sell.

Financial instruments

The company only has basic financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

Taxation

Taxation for the year comprises current and deferred tax.

The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on all timing differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

3. **EMPLOYEES AND DIRECTORS**

The average number of employees during the year was 1 (2019 - 1).
